Managing Director's Message

It is my honour and pleasure to convey this greetings to our esteemed customers and stakeholders on behalf of **ARAR Utility Company**. With the support of our professionnels and stakeholders, ARAR Utility has been successful to gain a very good position as one of the leading Electrical Contractor in the U.A.E.

Our people are our best asset! We take great pride in employing the best work force with technical expertise and industry specific domain knowledge that enables us to execute techno critical projects in the specified time schedule without compromising on quality and safety.

Over the years, we have put together, a good team and build a solid customer base. With the support of my team and the clients, I am confident that the company will continue to scale milestones of excellence, for years to come.

We are constantly working on stepping up our efforts to deliver superior value to our customers through our well positioned strategy. While driving growth, we will also continue to retain our focus on maintaining excellent corporate governance.

I take this opportunity to express our sincere appreciation to all our customers and stakeholders for their enthusiasm, trust and the support that they extended to us over the years. We are on course for a great future and I look forward to a strong and exciting years ahead in that journey.

Ramesh. M
Managing Director

About Us

ARAR UTILITY CO L.L.C – a Dubai registered Company, specialized in EPC, LV, MV, HV, EHV and Street Lighting works and associated civil works.

Over the span of 17 years, ARAR Utility has executed mid-sized to mega projects across the UAE with a specialized workforce that consists of best engineering expertise in the country.

ARAR Utility has successfully delivered projects of major electrical works for DEWA, RTA, NAKHEEL, EMAAR, SEWA, ETA, JAFZA, MEYDAN and DAEP. Our engineers and team members are approved by DEWA , RTA and we are currently pursuing the approvals from ADDC and Transco for Abu Dhabi projects.

ARAR Utility executes projects for DEWA & RTA as main contractor and as well as Subcontractor with the scope of design, installation, drilling, testing, commissioning and handing over as per the contract conditions and specifications. Our safety standards are in line with the DEWA/RTA standards requirement. All our supervisors, operators and workers are well trained and follow the local safety requirement.

With our innovative and efficient approaches to all our projects, we have established a reputation in the country for providing quality solutions that supports and realize the UAE's vision for sustainable development into reality.

Vision & Mission

At ARAR Utility, we believe that conducting business ethically and responsibly is critical to succeed in the long-term. We are driven by our vision, our mission and our values shape the way we operate and make decision, daily.

Vision

At ARAR Utility, we strive every day to learn, assess and implement the new technologies and best practices while honoring our legacy of providing reliable, quality services as we have for more than 15 years. ARAR Utility aims to be the leader in its field through excellence in customer service and innovation.

Mission

- To create a unique alchemy of operational excellence, path-breaking customer services, and compelling marketing
- To be the electrical contractor of choice for Authorities, Developers and Main Contractors.
- To create the best place to work where employees are empowered, cared, developed and provided unlimited opportunities.

Our Core Values

Integrity

Building lasting relationships through honesty, respect, and trust with our customers, employees, and the community. We always ensure that the entire ARAR team displays these same high principals.

Diversity

We value and respect the diversity as a source of inspiration and creativity with our clients, our employees and suppliers.

Safety

Lead a culture where safety is paramount to employees and customers and uncompromising in our commitment to the health and well-being of our employees, subcontractors, customers, and the community. We will continually improve our process, demonstrate leadership, and promote comprehensive safety.

Excellence

We vow to do our best to exceed our customer's expectations.

What we do

ARAR Utility offers complete electrical installation services in all sectors, including residential, commercial, education, industrial, railways and mega road and infrastructure projects. To ensure quality, we continue to provide our service with modern equipment, the finest materials, rigid quality control, and of course, highly enthusiastic workforce.

We are one of the approved contractors of Dubai Electricity and Water Authority (DEWA), Road and Transport Authority (RTA) and Etihad Water and Electricity (FEWA). We have undertaken many indoor and outdoor substation works and installed thousands of kilometers of HV/MV cable network and related civil works either in direct contract with the Authorities or the leading developers or subcontracted by leading contractors in the UAE.

We have number of projects ongoing with DEWA, which are accompanied by the massive expansion of underground cable network in the Emirate of Dubai, U.A.E. We also undertake comprehensive solutions for Road and Street lighting and related cabling and civil works.

With full-scale and integrated capabilities in Engineering, Procurement, Construction, Testing, and Commissioning services during the life cycle of the project across all sectors, ARAR Utility offers the complete package and reassurance of our quality workmanship throughout all stages of the project.

Additionally, we have a centralized project management office that operates as a coordinated management hub for all the projects, with the aim to create efficiencies between projects – as well as merely defining standards in the project management process.

Our Expertise

EHV & HV Works

We offer High Voltage Installations of 132kV network as follows
